

Vision of Sun on the Ice

The Vision:

It was during a prayer meeting on November 8th, 2018 that I began to share that I was lately being impressed that it was time *to take a stand*. As I did, the vision suddenly flashed before me as if to emphasize the point. So, as I was sharing, I described the vivid picture of what I was seeing as it unfolded. As I talked I also explained what it seemed to mean in the Spirit. They witnessed to the vision and its message. We felt it was a general message for all, so we've included it here.

The vision showed many people on a lake, especially in the center where the ice was so clear and in places the bottom far below, could be seen. The people were strolling about and focused on the view at their feet. I was on or near one shore, but from where I was, the thing to notice was not down, but up. It was very noticeable to me how bright the sunlight had recently become.

Then I became alarmed. Somehow I suddenly knew in the Spirit that the sun was quickly weakening the ice! I started shouting for everyone to quickly get off of the ice! I kept repeating to move fast because the ice was thinning in the middle! Word spread and most people started to move. The people closer to the other shore ran to that side, and those closer to my side started moving in my direction. The lake was long, so the people had only two choices of shoreline, and they were opposite each other. Some of those in the middle of the lake decided to go one way, while others in the middle chose the other direction. They were sometimes bumping into each other as they sorted out which way they aimed to go. Some were asking others which way to go, while some were trying to convince those in their midst of which way to go.

The people who lingered in the middle however became upset. The ice under them was beginning to crack. They started to panic. Their time was almost up. That was when the vision ended.

The Interpretation:

At first I was not grasping the full meaning of the vision. A spiritually-insightful friend helped me to taste more of the meat of the meaning. Here is the interpretation:

The people on the clear ice of this lake (looking down toward their feet), are the majority of Christians today. They are standing on thin ice with the word that they have and are not recognizing the danger. They are watching their feet rather than watching the sun above. They are ***more intent on the things that are going on in the earthly than in the heavenlies or Spirit***. They are more interested in what they are doing for God than in what God is doing in them and in creation.

We see this happen with Christians involved in trying to predict what should or will happen in our government rather than looking at what God is doing spiritually behind the politics and in the bigger picture.

The core of this vision is that the middle ground is dissolving quickly. People must take a stand toward one side or another. The increased presence of His light is requiring a change in location. This means that we must move from where we are to where we should be. To approach the right side we must take a stand toward righteousness. The mixture of sin within a people who call themselves by His name must end. Religiosity must be replaced with the reality of His Life, both individually and as a group of believers. For many, they are caught unaware, and for a time do not know which way to turn.

This is happening for example to evangelistic Christianity. They are one of God's instruments, but most of them are not looking to the Spirit. Others are involved in prayer movements; trying hard to influence what is happening by their many prayers, ***but not hearing Him***. Still others are politically involved, but ***missing the spiritual understanding*** of what is going on. Many are discovering our Hebrew Roots, but ***not using it to move on by the Spirit***, but rather being tempted to form religious groups based on the ones that they came out of, rather than moving by His Spirit.

The pell-mell separation that takes place when things crack and foundations crumble is inevitable. When these things take place there is no more of that type of unity. This is because that unity had been built on mixture and earthly vision, not on the rock foundation of Christ. It was on thin ice.

Comments:

This is a hard word that not many will be able to hear at this time. This word must be heard with spiritual ears in order to be understood.

This is not to say that one should cease from evangelism, prayer, politics, Hebrew roots, or any other works; but that these are not our headquarters for direction. These are not our source. These are not our focus. Our direction, source & focus are all on hearing & walking with Him in the Spirit...hearing His voice within and letting His Light shine in and through us to a hurting creation wherever He has us day by day.

For those who are moving on in their relationship with God, this hard word is encouraging. The mixture is about to end. People moving to the side of truth will come into more light while continuing to converge with each other. They are approaching the same goal. Those seeking truth within the realms of politics, prayer, Hebrew Roots, evangelism, etc are all continuing to converge in His Light & Truth. The new unity is centered spiritually on Him, on hearing His voice, and in walking as He directs.

The bright light of the sun represented His increasing presence. There is increased Light at this time rapidly revealing a great deal in both the natural and in the spiritual worlds. It is the end of this age when a great separation is taking place in both realms. What happens when light gets brighter? Shadows become distinct. Corruption becomes exposed both within & without. Truth vs. deceptions are made to be seen clearer than ever. Both righteousness and wickedness each become more intense. The difference between “doing for God” vs. “hearing God” becomes more distinct.

The wheat is being separated from the chaff. All are coming into maturity and can be easily sorted by their fruit. The sheep are being separated from the goats. Judgment is at the door...a great day to look up & rejoice for the righteous, but also a terrible day for the wicked to be brought to accountability. God Himself is accelerating the drawing near and the pushing away. As we are faithful with the light that we have, then we will be given more.

“8. Draw close to God and God will draw close to you...”

James 4:8(a) New Living Translation

All of these developments demand change. We must take a stand for Light or Darkness, our ways or His. If we cling to darkness because we don't want our evil deeds exposed, then we will be sent delusion to send us into further darkness.

“19. Now this is the judgment: Because the light has come into the world, and men loved the darkness more than the light, for their works are evil.”

John 3:19 Aramaic English New Testament

*“11. So God will send great deception upon them, and they will believe all these lies.
12. Then they will be condemned for not believing the truth
and for enjoying the evil they do.”*

2Thessalonians 2:11,12 New Living Translation

The point of the vision is that the time is now to take a stand that translates into action... to come out of religious systems with their earthly focus. Our identification must fundamentally be with our Messiah, not with any movement, religious leader, or group. Be aware that as the separation continues, so will the polarity, and thus the conflict.

The change starts on the inside by His Spirit, and then continues with change in relationships; and from there to change in culture, society, & government, not the other way around. ¹

This is the end of an old age, just as it was with Noah.

This is the beginning of a new age, just as it was with Noah.

We can only see what this means if we have eyes to see the things of the Spirit.

This old end & new replacement is what it means in **Revelation 20 & 21** by the old heaven & earth passing away & being replaced with a new heaven & earth. The old heavens represent the spiritual realm from which evil forces rule. The old earth represents the natural realm where the rulership is reflected through the actions of people under their dominion. When we read these chapters with the natural mind, then we miss the whole point of the true symbolism of the format in which it was written.

The old heaven & earth are the forces of darkness working through the fallen Adamic man on the earth. The corrupt reign of governments & religious systems of these forces through the fallen descendants of Adam is now ending. It is being replaced with the new heaven & the new earth; which is the rulership of the last Adam, Yeshua, our Messiah through His people.

As with Noah, this transition between the ages took time. So it is now. And as with Noah there were defining moments along the way. It is so exciting to see these defining moments in the transition of the ages today! The most thrilling one of course will be the first resurrection of the Overcomers to rule as the firstfruits Body of Messiah with Him in His authority, (**Revelations 2 & 3 & 21:7**).

1. This vision reminds me of an exclamation point of our Study No. 06, “Convergence of Light”. For the 12 specific trends in change, read pages 6 through 12 of that study, found on our website <https://www.bibleconcepts.com> under “Studies by Eric”.
