***The Hebrew Gospels* and the Messianic Church had been targeted for extinction - yet they survived and spread!** *The Hebrew Gospels* appear again in Medieval Spain along with the resurgence of the Messianic Church among the converted Jews. By the hundreds of thousands Jews converted to Christianity - many were forced - but most converted of their own free will. They shared the same educational tradition as the Jews. They believed the Hebrew story of the Hebrew Messiah should be preserved in the holy tongue - Hebrew. *The Hebrew Gospels* still survived. They were translated into *The Catalan Gospels* as well as the Shem Tov *Hebrew Matthew*. The Spanish Inquisition was implemented to crush this resurgent Messianic Church.

All over Europe and elsewhere the Messianic Church had spread. Pursued by the Inquisition, these Neo-Messianics became the Underground Church and went by many names. There were differences in doctrine - but always and everywhere the goal was to restore the original Messianic-Apostolic Church of the first century. They preserved *The Received Text* of the Bible outside of the grasp of the Greco-Roman Church. Many thousands of Messianic believers were tortured and slain. They were never extinguished. Survivors fled to neighboring regions where new churches sprang up. The Neo-Messianic Movement, although mingled with the blood of the early Jewish Christians, was mostly Gentile now. The Reformation Bibles were recovered from this source. **Armed with the *Received Text* of the Bible - within thirty years - two thirds of Europe became Protestant!** The Messianic Movement spread to the New World. The Inquisition followed. They survived and preserved *The Hebrew Gospels & The Received Text* of the Bible! Messianics played a critical untold role in the major events of world history. Messianics ended the Spanish Empire and shut down the Inquisition by creating the pirate capitol of the New World - the dreaded Buccaneers of the High Seas! They played a major role in liberating the Americas from colonial rule - forging a New World which offered equality, freedom and opportunity to all!
