

Miles Jones's Research Update 04-01-23 New Inscriptions Discovered at Mount Sinai

Miles Jones just returned from an epic journey to Mt Sinai in Arabia. His team was the last expedition to cross the desert to Mount Sinai. Why the last to cross the desert to get there?

Because of the rapid construction of The Neom Project, ¹ they left over paved roads! Now tourists will be able to come in by bus and stay at nearby hotels. It truly is the beginning of a new era.

The Jones's team filmed and documented all the evidence, both the old and the NEW INSCRIPTIONS they found at the site during their archaeological survey.

They project that these discoveries will be covered on the Writing of God TV show by May on Rood TV and other channels, (including their Youtube.com channel "Writing of God.") They have a lot of great film presentations from the Mountain of God, embracing such things as the Split Rock at Rephidim, the true Red Sea crossing location, and other sites in Saudi.

Personal Note on Miles Jones

On the third day at Mount Sinai (see **Exodus 19**) he & his beloved fiancée Catherine were married upon Moses' altar at the base of the Mountain of God under the bright & beautiful sunlight. It was a dual ceremony. Everyone present made "Ketubah" (marriage vows) with Yehovah, swearing to obey all the prescribed words of the Torah; a ceremony that has not been performed at Sinai for 3500 years!

Supernatural Confirming Events at Mount Sinai!

Shortly after the ceremony the heavens opened. A great wind began blowing clouds into the area. At first they were fluffy white clouds, then they became dark, covering the top of the mountain of God. There was thundering & lightning! Then the deluge of rain began as they all ran for the Land Rovers. It went on for some time and was more than the windshield wipers could handle. Then it began to hail long and hard! Shortly after we left the mountain it began to snow! Yehovah had fired every arrow from his quiver to make it clear that he had heard their vows to obey his Torah! It rains maybe once a year at Sinai and rarely, if ever, like it did that day.

The above content is a condensing of Miles Jones' 04-01-23 research update Email.

This summary is also on www.bibleconcepts.com under "Favorite Readings."

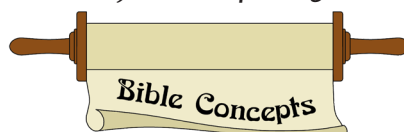

Dr. Miles Jones is an avid truth-seeker, continuing to use the newly found, best, most-accurate sources to translate the Gospels (now known to be originally written in Hebrew), into English.

*His translators will eventually translate all of the New/Renewed Covenant;
having already published the Book of James.*

Soon, he is expected to release 2 more New/Renewed Covenant books, (in the first half of 2023.)
